

## Annual Report 2015

### NISHI-NIPPON CITY BANK

### Profile

Headquartered in Kyushu's largest urban center, Fukuoka City (population: 1.52 million), the Nishi-Nippon City Bank Group comprises a parent bank, seven consolidated subsidiaries, and one affiliate. While banking services are its primary focus, the Group also provides a diverse range of financial services, including investing and lending operations, credit guarantees and credit card services, as well as credit management and business consulting services.

Guided by its management philosophy, "Aiming high and motivated by pride in our services, we are committed to becoming Kyushu's leading bank through our ability to respond to change and to grow with our customers," the Group's core banking services provide community-oriented financial services that cater mainly to individuals and small and medium-sized enterprises (SMEs) in its host region of Kyushu.

As of March 31, 2015, the Group has a nationwide network of 194 branches (Head Office, 169 branches, and 24 subbranches), together with three representative offices in Hong Kong, Seoul, and Shanghai.

### Message from the President

I am pleased to report on the business performance of the Nishi-Nippon City Bank Group for the fiscal year ended March 2015.

On October 1, 2014, we celebrated the 10th anniversary of our foundation; so, before beginning the report, I would like to express on behalf of our entire staff and management our most sincere appreciation to our valued customers, host communities, and shareholders for the warm support and patronage that they have so generously extended to us over the past decade.

During the fiscal year ended March 31, 2015, the Japanese economy made a rather slow start, as consumption and production weakened in reaction to last-minute demands prior to the consumption tax hike in April. Since then, the economy has been on a mild recovery path as a result of a turnaround in consumer spending due to improvements in employment/income environments. The economy of Kyushu, where the Group is based, also continues to recover steadily on the back of improving employment/income environments, although it appears that consumer spending remains weak.

Under these business conditions, April 2014 saw the launch of our new Medium-term Business Plan "New Stage 2014 – Working up a Sweat for Our Customers," which upholds the basic concept of a "Territorial Expansion and Qualitative Development Stage': When we tap into the Group's collective strength to achieve further growth for our customers." While pursuing our four basic strategies, namely, "Developing trustworthy human resources," "Establishing business promotion with optimal solutions for each customer," "Improving lifetime comprehensive support," and "Expanding the sales territory,"

we have focused on enhancing the Group's comprehensive financial strength.

In addition to these initiatives, we launched a series of 10th anniversary celebratory projects out of a sincere desire to express our heartfelt gratitude to our stakeholders and aim for "further leap forward" as we grow into the future together with our customers and host communities over the coming decade.

During the fiscal year under review, in which we kicked off the new Medium-term Business Plan, our efforts have borne fruit in terms of both income and volume.

Bearing our duty as a regional financial institution firmly in mind, both our staff and management will continue to make relentless efforts to revitalize the regional economy.

Your continued understanding of and support for our future endeavors is greatly appreciated.

July 2015

H. Janyo

Hiromichi Tanigawa, President

On a consolidated basis, in the fiscal period under review, total income decreased by ¥4,043 million year-on-year to ¥152,206 million (\$1,266 million) primarily due to a decline in income from lending activities in conjunction with a fall in interest rates. Total expenses decreased by ¥4,631 million to ¥110,837 million (\$922 million), primarily due to a decrease in net losses on sale of bonds (including Japanese government bonds) and a decline in write-offs of non-performing loans. As a result, income before income taxes and minority interests increased by ¥589 million to ¥41,369 million (\$344 million) and net income rose by ¥834 million to ¥24,843 million (\$206 million).

#### Solid Growth Registered in Both Loan Balance and Deposit Balance

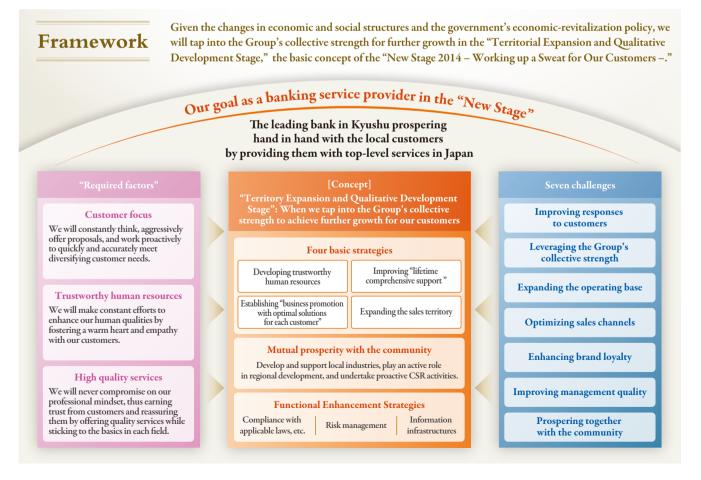

The loan balance (non-consolidated) at the end of the fiscal period under review increased by ¥306.2 billion during the year to ¥5,927.5 billion. Within this total, loans for the local Kyushu region accounted for 89.8%, with loans to SMEs and retail customers accounting for 77.3% of all loans.

The corresponding year-end balance of deposits, including certificates of deposit, increased by ¥392.0 billion to ¥7,130.9 billion yen. Within this total, the year-end balance of deposits from the local Kyushu region was ¥6,838.7 billion, or 95.9% of the total balance.

#### **Enhancing Comprehensive Business Support**

We worked to address the start-up funding and consulting needs of customers aiming to expand existing businesses or develop new businesses by providing financing or investing in business development funds. We also provided support in the form of information on subsidies and financing systems, as well as helping them to commercialize new technologies through collaborations with external institutions such as local universities, public finance institutions, and regional public bodies.

We also provided assistance to customers looking to further grow their businesses by expanding sales channels and/or investing in new business areas, including business matching, by holding business matching sessions in Japan in conjunction with organizations such as regional public bodies and other financial institutions as well as overseas business matching sessions in Shanghai and Hong Kong. Other initiatives included providing support for companies looking to expand their business activities overseas through collaborations with financial institutions outside of Japan and external experts, and consulting services to identify and find solutions to obstacles that might be hindering the growth of customers' businesses.

### Supporting Revitalization of the Kyushu Economy

In January 2015, working with the Regional Economy Vitalization Corporation of Japan (REVIC), the Development Bank of Japan, and Dogan, we established the NCB Kyushu Revitalization Fund, which is aimed at providing comprehensive support to local companies with the potential to drive the Kyushu economy, ranging from improvement and reinforcement of their business bases to strategies for growth/expansion and business continuity.

In addition to a shrinking market resulting from a population decline, local businesses face increasingly fierce competition from large corporations that are expanding into provincial regions, together with a lack of business successors. Many of them require reinforcement of their financial bases and restructuring of their capital policies in order to implement the drastic measures needed to reorganize and restructure their businesses and ensure smooth succession. The NCB Kyushu Revitalization Fund is intended to provide greater growth support to local Kyushu companies harboring these types of needs.

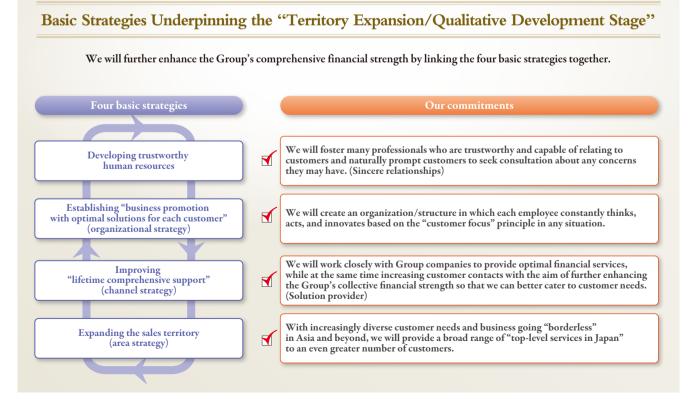

As a local financial institution, we aim to respond to environmental and structural changes in the regional economy and society, and to assist in the comprehensive revitalization of the communities in which we operate, with a view to the revitalization and sustainable growth of the region as a whole. We implemented a range of measures to drive economic activity in the local regions, including holding business matching sessions aimed at promoting regional products, and to revitalize industries in collaboration with external organizations such as regional public bodies and local universities, supporting industry-government-academic collaboration to develop new regional industries and businesses, and supporting projects for vitalizing urban centers.

#### Key Points of FY2015 Operating Policy Based on New Medium-term Business Plan

In fiscal 2015, we will work to boost our brand power by developing and reliably supplying the highest-quality products and services, and will strive to enhance brand loyalty by delivering services that exceed expectations and leave lasting positive impressions among our customers, centered on the four basic strategies that we have set forth under our new Medium-term Business Plan.

Going forward, our management and staff will refocus on our roots as a regional financial institution and persevere with efforts to revitalize the regional economy.

I would like to take this opportunity to request your ongoing understanding of and support for the Nishi-Nippon City Bank Group in its future endeavors.

3

Pursuit of a sounder financial position is ranked as one of the Bank's key priorities. Accordingly, we are strengthening our capital adequacy and reducing non-performing loans (NPLs).

#### **NPL Ratio Improved** by 0.28 Percentage Points to 2.44%

The Bank carries out write-offs and provision of reserves for its NPLs according to strict standards, based on selfassessment of assets. As of March 31, 2015, the Bank's NPL balance (subject to mandatory disclosure of claims under the Financial Reconstruction Law, non-consolidated basis) decreased by ¥8.7 billion year-on-year to ¥145.6 billion. As a result, the NPL ratio declined to 2.44%, compared to 2.72% at the end of the previous fiscal year.

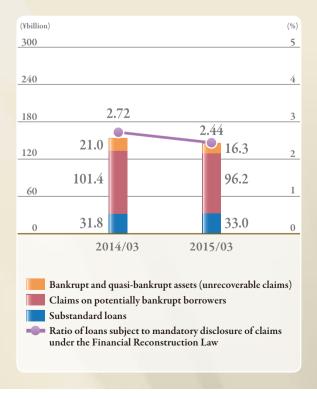

The coverage ratio for loans subject to mandatory disclosure of claims under the Financial Reconstruction Law is 83.11%, mainly through collateral and guarantees. The coverage ratio for bankrupt and quasi-bankrupt assets remains at 100%.

#### Capital Ratio (Consolidated) at 9.62%

The capital ratio as of March 31, 2015, stood at 9.52% on a non-consolidated basis and 9.62% on a consolidated basis. These figures are significantly higher than the minimum level of 4.0% required of banks operating in Japan.

We will be implementing measures to further strengthen our capital adequacy and raise the capital ratio.

#### Balance of NPLs and ratio of loans subject to mandatory disclosure of claims under the Financial Reconstruction Law

#### **Capital** ratio

### **Risk Management Systems**

With the liberalization and globalization of finance and advances in information technology, the risks attendant on financial services are growing more diverse and complex. Against this backdrop, the Bank is strengthening its risk management systems, one of the key priority issues for management, with the goal of establishing a sound management foundation and ensuring stable revenues.

**Integrated Risk Management:** In order to properly manage the risks associated with banking operations, the Bank quantifies such risks using a uniform standard employing VaR (Value at Risk) and other methods and compares measured risks against management resilience. In more concrete terms, we adequately control risks by using the method of capital allocation to each risk category – credit, market, and operational risks – so that each business division can contain the risks within the scope of the allocated capital (risk limits).

Risks that are difficult to quantify using the VaR method are subject to periodic stress testing in order to determine their possible impact on equity capital, thus ensuring capital sufficiency.

**The ALM System:** The ALM committee, consisting of top management members, meets monthly to conduct integrated management of all of the Bank's assets and liabilities, including off-balance-sheet transactions, based on projections of economic trends and capital market interest rates.

The committee also quantifies risks in areas such as deposits and loans, bonds, stocks, and investment trusts, using the VaR method, and discusses and determines important risk management issues that are essential to maximizing and stabilizing revenues, as well as matters concerning integrated risks. This is conducted based on analysis of gaps generated by differences in contract terms for assets and liabilities, and on analysis of revenue forecasts.

**Credit Risk Management:** The Bank is strengthening credit risk management in accordance with its "Credit Risk Management Policy," which outlines its basic policy on management of credit risks, and its "Credit Policy," which serves as its guidelines for credit practices. Each case is screened extensively, taking into account the purpose of the loan and sources of funds for repayment from the perspective of public aspects, safety, profitability, and growth potential, and we are working hard to maintain and improve the soundness of our assets by applying strict standards after investigating the actual circumstances of relevant customers.

We also ensure that lending portfolio risks are dispersed using a system of credit risk quantification and sector-based portfolio management based on our "credit rating system," so that we can earn a level of income commensurate with credit cost. Market Risk Management: To properly manage market risks, the ALM committee sets up various limits, such as risk limits, position limits, and loss limits, for each business division and risk category. The committee also quantifies market risks using several risk measurement methods and properly controls risks within permissible limits, thereby ensuring a stable flow of income.

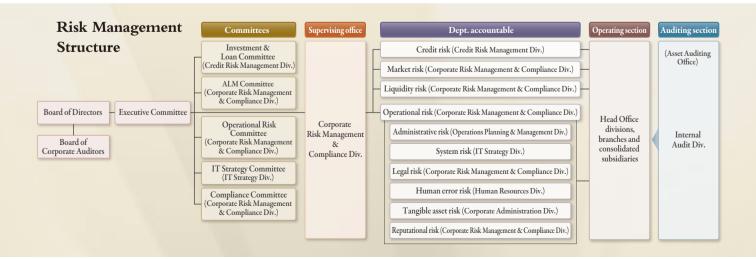

Liquidity Risk Management: Besides maintaining the soundness of its assets in order to prevent tight finances, the Bank has developed a liquidity risk management system by formulating and implementing the "Liquidity Risk Management Policy," "Liquidity Risk Management Regulations," etc. in an effort to ensure market liquidity and stabilize cash flows.

**Operational Risk Management:** Given that operational risks are so extensive, varied, and diverse that they concern every single operation and section and thus must be avoided as far as possible in business management, the Bank has developed an organizational setup and system that properly manage such risks, in order to prevent them from becoming actualized and to minimize their impacts should any such risks occur.

**Crisis Management:** To ensure that the minimum operations necessary for maintaining the financial system's functions can continue without interruption and, should they be interrupted due to large-scale disasters, IT system failures or other contingencies, to ensure that they are resumed promptly, the Bank has established its "Business Continuity Plan" and strives to enhance effectiveness of the business continuity management system by carrying out various kinds of drills.

#### Adequacy and Effectiveness of Internal Control:

Independent from all other business divisions, the Internal Audit Division conducts verification and assessment in accordance with the "Internal Audit Policy," which provides the basic policy, etc. concerning the internal auditing system, in order to make suggestions to auditees on remedying of issues that may have been identified, and reports audit findings, etc. to the Board of Directors, Executive Committee, and auditors on a monthly basis.

### Notes to Consolidated Financial Statements

#### The Nishi-Nippon City Bank, Ltd. and Subsidiaries

	<b>Basis of Presentation of</b>	The accompanying consolidated financial statements of The Nishi-Nippon C	ity Bank, Ltd. (th	e "Bank"),
	<b>Consolidated Financial</b>	formerly The Nishi-Nippon Bank, Ltd., and its consolidated subsidiaries hav		
	Statements	with accounting principles generally accepted in Japan, which are different in	n certain respects	as to the
		application and disclosure requirements of International Financial Reporting	Standards, and an	re compiled
		from the consolidated financial statements prepared by the Bank as required	by the Financial I	Instruments
		and Exchange Law of Japan.		
		In addition, the notes to the consolidated financial statements include in	formation which	is not required
		under accounting principles generally accepted in Japan but is presented here	ein as additional i	nformation.
		Solely for the convenience of readers outside Japan, certain items in the	original Japanes	e financial
		statements have been reclassified for presentation.		
		As permitted by the Financial Instruments and Exchange Law, amounts	s of less than one	million yen
		have been omitted by the Bank.		
		Consequently, the totals shown in the accompanying consolidated finan	cial statements (b	oth in yen and
		U.S. dollars) do not necessarily agree with the sum of the individual amounts	5.	
		The amounts in U.S. dollars are included solely for the convenience of	readers outside Ja	pan. A rate of
		¥120.17= U.S.\$ 1.00, the exchange rate on 31st March, 2015, has been used	in translation.	
		In the consolidated financial statements, "-" is used to denote "nil" and	d "0" is used to de	enote rounding
		down to zero.		
2.	Summary of Significant	(a) Scope of Consolidation		
	Accounting Policies	The consolidated financial statements include the accounts of the Bank	and its consolidat	ted subsidiaries.
		The number of consolidated and non-consolidated subsidiaries for	the years ended 3	31st March, 2015

provisional closing of accounts performed as of 31st March. Other subsidiaries are consolidated based on the financial statements at their respective closing dates.

#### (d) Trading Account Assets and Liabilities

Transactions that seek gains on short-term fluctuations and arbitrage in interest rates, currency prices, market prices of financial instruments (trading transactions) are recognized on a trade date basis. They are recorded as trading assets or trading liabilities on the consolidated balance sheets and gains or losses on these transactions are recorded in trading income or trading expenses on the consolidated statements of income.

The Bank values securities, monetary claims, etc. held for trading purpose at the market price prevailing at the balance sheet date. Derivatives, such as futures and option transactions, are stated at the amount assuming that they were terminated or settled at the balance sheet date.

Trading income and expenses include interest income or expenses as well as changes in unrealized gains or losses on securities, monetary claims and derivative financial products during the fiscal year.

(e) Securities

Securities held to maturity are carried at amortized cost using the straight-line method with cost determined by the moving average method. Investments in non-consolidated subsidiaries not accounted for by the equity method are valued at cost determined by the moving average method. In principle, securities available for sale are carried at fair value with cost of sales determined by the moving average method. However, securities available for sale, for which it is extremely difficult to determine the fair value, are valued at cost determined by the moving average method.

The difference between the acquisition cost and the carrying amount of securities available for sale, representing unrealized gains and losses, is recognized as unrealized gains (losses) on securities available for sale, net of taxes, and included directly in net assets.

Securities held as components of individually managed money trusts whose principal objective is investments in securities are stated at fair value.

(f) Derivatives

Derivatives held or written are stated at fair value.

(g) Tangible Fixed Assets (excluding leased assets)

The Bank uses the declining-balance method for depreciation of tangible fixed assets other than buildings acquired on and after 1st April, 1998 which are depreciated by the straight-line method. The useful lives for buildings and equipment are as follows:

Buildings: 3 to 60 years

Equipment: 2 to 20 years

Tangible fixed assets of consolidated subsidiaries are depreciated mainly using the declining-balance method.

(h) Intangible Fixed Assets (excluding leased assets)

Intangible fixed assets are amortized using the straight-line method. Software for internal use is amortized based on the estimated useful life determined by the Bank and its consolidated subsidiaries (generally 5 vears).

(i) Leased Assets

The tangible and intangible fixed assets capitalized under the finance lease transactions entered into on and after 1st April, 2008 where ownership of leased assets is not transferred to lessees are depreciated by the straight-line method over the lease term with their residual value of zero.

#### (j) Reserve for Possible Loan Losses

For loans to insolvent customers who are undergoing bankruptcy or special liquidation, etc. (hereinafter, "borrowers under bankruptcy proceedings") or who are in a similar financial condition although not yet in bankruptcy (hereinafter, "borrowers substantially in bankruptcy"), the reserve for possible loan losses is provided at the full amount of the book value of such loans after deducting the amount of direct write-offs (as defined below), and excluding the amounts deemed collectible from sale of the collateral pledged and the guarantees that are deemed recoverable.

For the unsecured and unguaranteed portion of loans to customers not presently in the above circumstances, but with a high probability of becoming so (hereinafter "customers with high probability of becoming insolvent"), the reserve for possible loan losses is provided at the amounts deemed necessary after deduction of the estimated realizable value of collateral and guarantees based on the customer's overall financial condition.

For other loans, the reserve for possible loan losses is provided at an amount based on the anticipated loss rates calculated from the actual losses for a certain period.

Regarding each loan, the Credit Review Office, which is independent of the operating divisions, reviews the operating divisions' evaluation of each loan for collectibility based on self-assessment standards.

For loans to borrowers under bankruptcy proceedings and borrowers substantially in bankruptcy that are secured by collateral and guarantees, the unrecoverable portion of such loans is determined by subtracting the estimated recoverable amounts from the disposal of the collateral and the amounts deemed recoverable from the guarantors. The unrecoverable amount is written off directly against the value of the loan ("direct write-off"). The amounts of such direct write-offs at 31st March, 2015 and 2014 were ¥16,061 million (\$138,150 thousand), and ¥20,339 million, respectively.

For loans to borrowers with a rescheduled or restructuring plan, which exceed a certain amount, the discounted cash flow (DCF) method is applied to provide for doubtful accounts, if cash flows from collection of principal and receipts of interest can be reasonably estimated. Under the DCF method a reserve for possible loan losses is provided at the difference between the cash flows discounted by the original interest rate and the carrying value of the loan.

Consolidated subsidiaries record a general reserve for possible loan losses by applying the historical loan-loss ratio observed over specific periods, and record a specific reserve for certain loans at the estimated uncollectible amount based on assessment of each borrower's ability to repay.

(k) Reserve for Devaluation of Securities

In order to provide for a loss on investments, the Bank estimates the amount deemed necessary based on a review of financial position, etc. of the companies issuing securities or golf club membership.

(1) Reserve for Retirement Benefits for Directors and Corporate Auditors

Reserve for retirement benefits for directors and corporate auditors is provided by some of the consolidated subsidiaries at the amount that would be paid in accordance with the internally established rule at the balance sheet date if they were retired on that date.

(m) Reserve for Reimbursement of Deposits

Reserve for reimbursement of deposits is provided for possible losses on the future claims for withdrawal of the deposits, which was derecognized, at an amount deemed necessary based on the estimates of the Bank.

(n) Reserve for Other Contingent Losses

Reserve for other contingent losses is provided for possible losses on loans under the shared responsibility system with the Credit Guarantee Corporation as well as for possible losses resulting from other contingencies not covered by the other reserves, at an amount deemed necessary based on the estimates of the future possible payments by the Bank.

(o) Reserve under the Special Laws

Reserve under the special laws is a legal reserve for financial instruments exchange, which is provided for possible losses arising from the purchase or sale of securities or other securities-related trading activities by the Bank's consolidated subsidiaries in Japan at an amount estimated pursuant to Article 46, Item 5 of the Financial Instruments and Exchange Law as well as Article 175 of the Cabinet Office Ordinance relating to the financial instruments services.

#### (p) Accounting for Retirement Benefits

The retirement benefit obligation for employees is attributed to each period by the benefit formula method. Actuarial gain/loss is amortized using the straight–line method mainly over a period of 10 years following the year it arises, which is within the average remaining years of service of the current employees.

For some consolidated subsidiaries, liability for retirement benefits and retirement benefit expenses are calculated using the simplified method, which assumes the retirement benefit obligation to be equal to the benefits payable if all eligible employees voluntarily terminated their employment at fiscal year end.

(q) Foreign Currency Translation

Foreign currency-denominated assets and liabilities are translated into Japanese yen primarily at the exchange rate prevailing at the balance sheet date.

(r) Accounting for Leases

Finance lease transactions which were initially engaged by the Bank and its consolidated subsidiaries prior to 1st April, 2008 where there is no transfer of ownership are accounted for by the same method as applicable to ordinary operating lease contracts.

(s) Hedge Accounting

 $(\ensuremath{\underline{1}})$  Hedge accounting for interest rate risks

The Bank applies the deferred method as hedge accounting for interest rate risks of certain financial assets and liabilities by using the individual hedging, which directly matches hedged items and hedging instruments.

With regard to hedging transactions to offset fluctuations in the fair value of fixed-rate bonds classified as available-for-sale securities, in accordance with operational rules concerning hedge accounting, hedged items are distinguished by identical type of bonds and interest rate swaps are used as hedging instruments. Since significant terms related to those hedged items and hedging instruments are nearly identical, such hedging transactions are deemed highly effective in terms of evaluation of hedge effectiveness.

No evaluation is performed for hedge effectiveness of qualifying interest rate swaps accounted for by the special treatment, as it is ascertained that the criteria for the special treatment are continually met. (2) Hedge accounting for foreign exchange rate risk

The Bank applies the deferred method as hedge accounting for foreign exchange risks of various foreign currency-denominated financial assets and liabilities in accordance with the "Accounting and Auditing Treatment for Accounting for Foreign Currency Transactions in Banking Industry" (JICPA Industry Audit Committee Report No. 25).

The Bank treats foreign exchange swap transactions as hedging instruments for the purpose of the hedge of foreign currency-denominated financial assets and liabilities, and the Bank tests hedge effectiveness by matching the foreign currency swap position as hedging instruments with the related foreign currency-denominated financial assets and liabilities as hedged items. ③ Internal contract

For internal contracts, the Bank manages the foreign currency swaps that are designated as hedging instruments in accordance with the strict criteria for external transactions stipulated in the JICPA Industry Audit Committee Report No. 25. Therefore, the Bank either recognizes gains or losses that arise from such currency swaps as earnings or defers them, rather than eliminating them.

		(t) Amortization of Goodwill
		Goodwill is amortized using the straight-line method over five years.
		(u) Cash and Cash Equivalents in the Consolidated Statements of Cash Flows
		Cash and Cash Equivalents in the consolidated statements of cash flows are composed of cash and due
		from central bank.
		(v) Accounting Treatment for Consumption Taxes
		The tax excluded method is used as the accounting treatment for consumption taxes and local
		consumption taxes for the Bank and its domestic consolidated subsidiaries.
3.	Change in Accounting	The main clause of Paragraph 35 of "Accounting Standard for Retirement Benefits" (ASBJ Statement No. 26
	Policies	of 17th May, 2012; hereinafter "Retirement Benefits Accounting Standard") and the main clause of Paragraph
		67 of "Guidance on Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25 of 26th March, 2015;
		hereinafter "Retirement Benefits Guidance") were adopted effective from 1st April, 2014.
		As a result, the methods for calculating the retirement benefit obligation and service cost have been revised
		in the following respects: the method used for attributing projected benefits to each period has been changed from
		the straight-line method to the benefit formula method, and the method used for determining the discount rate
		has been changed to use a single weighted-average discount rate that reflects the expected timing and amount
		of benefit payments.
		Concerning the application of the Retirement Benefits Accounting Standard, in accordance with the provisional
		treatment set forth in Paragraph 37 of the standard, the cumulative effect resulting from the change in the methods
		for calculating the retirement benefit obligation and service cost was recognized by adjusting retained earnings at
		1st April, 2014.
		As a result of this change, the liability for retirement benefits increased by ¥156 million (\$1,304 thousand),
		and the asset for retirement benefits, earned surplus and minority interests decreased by ¥0 million
		(\$3 thousand), ¥133 million (\$1,108 thousand) and ¥24 million (\$200 thousand), respectively, at 1st April, 2014.
		The impact on profit (loss) for the year ended 31st March, 2015 is immaterial.
		The effect of this change on per-share information is disclosed in Note 40.
4.	Accounting Standards	Accounting standards for business combinations (issued on 13th September, 2013)
	yet to be Applied	(a) Outline
	J	The accounting standards and guidance have been revised primarily to change 1) the accounting treatment
		for changes in shares that a parent company has in one of its subsidiaries due to acquisition of additional
		shares of the subsidiary which is under continued control of the parent and 2) the accounting treatment
		for acquisition-related costs, to define 3) the provisional treatment for these changes, and to amend 4)
		the presentation method of net income and the terminology from "minority interests" to "non-controlling
		interests."
		(b) Effective date
		The Bank plans to apply the revised accounting standards for business combinations effective as of the
		beginning of the fiscal year ending 31st March, 2016.
		(c) Impact of application of the accounting standards and guidance
		The bank is currently evaluating the impact of application of the accounting standards and guidance.

#### 5. Trading Account Assets

#### Trading account assets at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Trading securities	¥982	¥1,026	\$8,178
Other trading assets	_	_	-
Total	¥982	¥1,026	\$8,178

#### 6. Securities

Securities at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Japanese government bonds	¥729,015	¥622,963	\$6,066,534
Japanese municipal bonds	153,962	201,876	1,281,202
Corporate bonds (including			
government-guaranteed bonds)*	487,862	508,301	4,059,766
Stock**	120,619	106,508	1,003,736
Other securities***	396,466	341,561	3,299,216
Total	¥1,887,925	¥1,781,211	\$15,710,455

Corporate bonds included bonds offered through private placement. The Bank's guarantee obligation for such private placement bonds at 31st March, 2015 and 2014 were ¥3,401 million (\$28,301 thousand) and ¥4,466 million, respectively.

\*\* Stock included stock of affiliates of ¥564 million (\$4,694 thousand) and ¥557 million at 31st March, 2015 and 2014, respectively.

\*\*\* Other securities included investments in non-consolidated subsidiaries of ¥320million (\$2,669 thousand) and ¥347 million at 31st March, 2015 and 2014, respectively.

#### 7. Loans and Bills Discounted Loans and bills discounted at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of	Millions of yen	
	2015	2014	2015
Bills discounted*	¥30,183	¥31,030	\$251,171
Loans on notes	203,509	193,439	1,693,509
Loans on deed	5,355,873	5,102,637	44,569,140
Overdraft	569,116	522,759	4,735,924
Total	¥6,158,682	¥5,849,866	\$51,249,746

Bills discounted are recorded as cash lending / borrowing transactions in accordance with the "Accounting and Auditing Treatments for Application of Accounting Standard for Financial Instruments in Banking Industry" (JICPA Industry Audit Committee Report No. 24). The Bank has right to sell or collateralize such bills at its discretion. Total face value of commercial bills and bills of exchange acquired through discounting amounted to ¥30,948 million (\$257,535 thousand) and ¥31,682 million at 31st March, 2015 and 2014, respectively.

			Thousands of
	Millions of	/en	U.S. dollars
	2015	2014	2015
Loans to legally bankrupt entities**	¥2,908	¥2,103	\$24
Delinquent loans***	118,864	130,758	989
Loans past due for three months or more****	202	311	1
Loans with altered lending conditions*****	32,947	31,552	274
Total	¥154,923	¥164,725	\$1,289

Non-performing loans included in the loans at 31st March, 2015 and 2014 consisted of the following:

\*\* Loans to legally bankrupt entities are loans on which interest is placed on a non-accrual status ("non-accrual loans"), excluding loans written off, as principal or interest has not been paid for a substantial period or for other reasons and there are no prospects for recovery or repayment of principal or interest, and to which certain circumstances apply as stated in the Implementation Ordinances for the Corporation Tax Law.

- \*\*\* Delinquent loans are non-accrual loans other than (i) loans to legally bankrupt entities and (ii) loans for which interest payments have been rescheduled in order to assist the restructuring of these borrowers.
- \*\*\*\* Loans past due for three months or more are loans for which principal or interest has not been paid for a period of three months or more from the next business day of the last due date, and that are not included in loans to legally bankrupt entities or delinquent loans.
- \*\*\*\*\* Loans with altered lending conditions are loans restructured to provide relief to borrowers, such as reducing interest rates, rescheduling interest and principal payment, or waiving the claims, in order to assist the restructuring of these borrowers. Such loans exclude loans to legally bankrupt entities, delinquent loans, and loans past due for three months or more.

Assets pledged as collateral by the Bank and its consolidated subsidiaries at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Assets pledged as collateral			
Cash and due from banks	¥40	¥54	\$338
Commercial paper and other debt purchased	92	377	769
Securities	590,204	439,278	4,911,414
Total	¥590,337	¥439,711	\$4,912,522
Liabilities secured by the above assets			
Deposits	<b>¥29,67</b> 7	¥18,827	\$246,962
Call money and bills sold	60,900	50,600	506,782
Payables under repurchase agreements	11,624	_	96,731
Guarantee deposits received under securities			
lending transactions	94,169	19,720	783,638
Borrowed money	274,661	203,434	2,285,610

Other than the items shown above, the following items were pledged as collateral for foreign exchange transactions and/or as substitutes for initial margin on futures at 31st March, 2015 and 2014:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Cash and due from banks	¥2	¥2	\$16
Securities	89,903	83,764	748,136

The following deposits were included in other assets at 31st March, 2015 and 2014:

			Thousands of
	Millions of y	en	U.S. dollars
	2015	2014	2015
Deposits included in other assets	¥2,725	¥3,376	\$22,676

8. Assets Pledged as Collateral

### 9. Contracts for Commitment Lines of Credit

Contracts for commitment lines of credit related to overdraft agreements and loan credit facilities represent a promise on a lending bank at a specified credit limit, to a customer upon request for funds, unless there is a violation of the contractual conditions.

The aggregate amounts under commitment contracts not yet drawn down at 31st March, 2015 and 2014 are as follows:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Aggregate amount under commitment contracts not yet			
drawn down	¥1,851,234	¥1,811,594	\$15,405,126
Of the above amount, those with original maturity of less			
than one year or cancellable at any time without penalty	1,825,316	1,781,542	15,189,453

As many of these contracts expire without the right to extend the loans being exercised, the aggregate total of the undrawn amount does not necessarily affect the future cash flows of the Bank and its consolidated subsidiaries. Many of these contracts have stipulations that allow the Bank and its consolidated subsidiaries to turn down a loan request or reduce the amount of the credit line if there is a change in financial conditions, a need to secure their credit, or other similar reasons. In addition to obtaining necessary collateral (real estate, securities, etc.) at the time the contract is entered into, the Bank and its consolidated subsidiaries assess the condition of the customer's business operations, and analyze other information, based on internal procedures and standards. If necessary, the contract is reviewed and revised, or additional steps are taken to secure the credit extended to the customer.

#### 10. Foreign Exchange

Foreign exchange assets and liabilities at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Assets:			
Foreign exchange bills bought	¥764	¥652	\$6,364
Foreign exchange bills receivable	366	440	3,048
Due from foreign banks (their accounts)	-	1,649	-
Due from foreign banks (our accounts)	7,586	3,957	63,129
Total	¥8,717	¥6,699	\$72,542
Liabilities:			
Foreign exchange bills sold	¥2	¥1	\$18
Foreign exchange bills payable	76	96	633
Total	¥78	¥97	\$652

#### 11. Other Assets

#### Other assets at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Domestic exchange settlement account*	¥16	¥13	\$134
Accrued income	7,209	7,746	59,991
Prepaid expenses	73	78	608
Financial derivative products	5,852	4,991	48,698
Other	26,960	24,309	224,349
Total	¥40,110	¥37,138	\$333,782

 Domestic exchange settlement account represents unsettled debit balances arising from inter-bank domestic exchange transfers.

#### 12. Tangible Fixed Assets

#### Tangible fixed assets at 31st March, 2015 and 2014 consisted of the following:

6	0		
	Millions of y	Millions of yen	
	2015	2014	2015
Land	¥76,538	¥79,301	\$636,917

	183,695	186,418	1,528,630
Less accumulated depreciation	(73,105)	(72,796)	(608,349)
Total	¥110,590	¥113,622	\$920,281

The accelerated depreciation entry amounts for tangible fixed assets at 31th March, 2015 and 2014 are as follows:

		Thousands of
Millions of y	en	U.S. dollars
2015	2014	2015
¥7,560	¥7,675	\$62,912

13. Deposits

Deposits at 31st March, 2015 and 2014 consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2015	2014	2015
Current deposits	¥304,738	¥282,371	\$2,535,897
Ordinary deposits	3,670,931	3,389,112	30,547,823
Deposits at notice	11,886	13,358	98,917
Time deposits	2,983,635	2,917,689	24,828,455
Negotiable certificates of deposit	232,481	232,610	1,934,604
Other deposits	126,328	117,329	1,051,250
Total	¥7,330,003	¥6,952,471	\$60,996,949

14. Bonds

Bonds at 31st March, 2015 and 2014 consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2015	2014	2015
Bonds:			
3.20% Japanese yen subordinated bonds due 2014	-	¥15,000	-
2.78% Japanese yen subordinated bonds due 2015	14,500	14,500	120,662
2.70% Japanese yen subordinated bonds due 2017	10,000	10,000	83,215
1.70% Japanese yen callable subordinated bonds due 2020	15,000	15,000	124,823
1.55% Japanese yen callable subordinated bonds due 2021	8,800	8,800	73,229
1.37% Japanese yen callable subordinated bonds due 2021	10,000	10,000	83,215
0.67% Japanese yen callable subordinated bonds due 2023	10,000	10,000	83,215
0.87% Japanese yen callable subordinated bonds due 2025	10,000	10,000	83,215
Total	¥78,300	¥93,300	\$651,576

#### 15. Borrowed Money

Borrowed money included subordinated borrowings of ¥10,000 million at 31st March, 2014.

The weighted average interest rates on borrowed money at 31st March, 2015 and 2014 are 0.14% and 0.28%, respectively. The aggregate annual maturity amounts within five years of borrowed money after 31st March, 2015 are as follows:

		Thousands of
	Millions of yen	U.S. dollars
Year ending 31st March		
2016	¥38,098	\$317,038
2017	145,284	1,208,994
2018	778	6,478
2019	100,541	836,657
2020	674	5,609

#### 16. Other Liabilities

#### Other liabilities at 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Domestic exchange settlement account	¥28	¥28	\$238
Accrued income taxes	3,835	1,483	31,913
Accrued expenses	9,250	9,637	76,974
Unearned income	2,906	2,981	24,190
Financial derivative products	7,869	6,169	65,488
Lease obligations	219	336	1,824
Asset retirement obligations	836	833	6,958
Others	64,403	65,661	535,936
Total	¥89,349	¥87,130	\$743,526

#### 17. Capital Stock

Capital stock during the year ended 31st March, 2015 consisted of the following:

	Common stock	Capital	Capital stock	
	Issued shares	Issued shares Millions of	Thousands of U.S. dollars	
		yen		
1st April, 2014	796,732,552	¥85,745	\$713,535	
Increase	_	_	-	
Decrease	_	_	_	
31st March, 2015	796,732,552	¥85,745	\$713,535	

#### Capital stock during the year ended 31st March, 2014 consisted of the following:

	Common stock	Capital stock	
	Issued shares		
		yen	
1st April, 2013	796,732,552	¥85,745	
Increase	_	-	
Decrease	_	_	
31st March, 2014	796,732,552	¥85,745	

#### 18. Treasury Stock

#### Treasury stock during the year ended 31st March, 2015 consisted of the following:

	Common stock	Treasury stock	
	Number of shares	Millions of yen	Thousands of U.S. dollars
1st April, 2014	1,768,885	(¥692)	(\$5,758)
Increase*	14,435,160	(5,082)	(42,291)
Decrease*	10,282,713	3,645	30,334
31st March, 2015	5,921,332	(¥2,128)	(\$17,715)

\* An increase of 14,435,160 shares for the year ended 31st March, 2015 was caused by purchase of treasury shares of 14,045,442, purchase of fractional shares of 284,718 and an increase in shares of 105,000 held by affiliates accounted for by the equity method due to the share exchange. A decrease of 10,282,713 shares was caused by a decrease of 10,267,674 shares due to the share exchange and sale of fractional shares of 15,039.

#### Treasury stock during the year ended 31st March, 2014 consisted of the following:

	Common stock	Treasury stock	
	Number of shares	Millions of	
		yen	
1st April, 2013	1,696,763	(¥673)	
Increase*	80,893	(21)	
Decrease*	8,771	3	
31st March, 2014	1,768,885	(¥692)	

\* An increase for the year ended 31st March, 2014 was caused by purchase of fractional shares, and a decrease was caused by sale of fractional shares.

# 19. Revaluation of Premises Based on the Law Concerning Land Revaluation (Law No. 34, promulgated on 31st March, 1998), the Bank Account has revalued its land used for business purposes. The deferred taxes on revaluation differences are presented in the account, "Deferred tax liabilities on revaluation of premises" in the liabilities of the consolidated balance sheet. The amount of revaluation differences, net of tax, is presented as "Revaluation of premises, net of taxes" in net assets.

The excess of the aggregate market value of land for business use revalued in accordance with Article 10 of the Law Concerning Land Revaluation over the book value after revaluation at 31st March, 2015 and 2014 is as follows:

		Thousands of
Millions of y	en	U.S. dollars
2015	2014	2015
¥25,209	¥30,672	\$209,779

20. Other Interest Income	Other interest income for the years ended 31st March, 2015 and 2014 consisted of the following:

#### 24. Other Operating Expenses

Other operating expenses for the years ended 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Losses on sale of bonds	¥200	¥3,486	\$1,671
Losses on redemption of bonds	79	106	661
Expenses for derivatives other than trading derivatives	218	9	1,821
Others	0	0	0
Total	¥499	¥3,602	\$4,154

### 25. General and Administrative Expenses

General and administrative expenses for the years ended 31st March, 2015 and 2014 consisted of the following:

			Thousands of
	Millions of y	en	U.S. dollars
	2015	2014	2015
Salaries and allowances	¥33,449	¥33,963	\$278,355
Employee retirement benefits	1,836	1,673	15,285
Retirement benefits for directors and corporate auditors	39	31	325
Depreciation	5,732	6,156	47,705
Rental expenses	3,881	4,091	32,297
Amortization of goodwill	128	128	1,065
Taxes	4,425	3,999	36,826
Others	34,142	33,860	284,121
Total	¥83,636	¥83,906	\$695,983

#### 26. Other Expenses

Other expenses for the years ended 31st March, 2015 and 2014 consisted of the following:

		-	Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Provision for possible loan losses	¥ –	¥1,090	\$ -
Losses on write-offs of claims	2,167	3,490	18,033
Losses on sale of stock and other securities	1,002	306	8,346
Losses on devaluation of stock and other			
securities	0	760	5
Losses on money held in trust	0	27	4
Losses on disposition of tangible fixed assets	671	387	5,583
Impairment losses	2,769	1,315	23,043
Losses on sale of loans	370	1,066	3,085
Others	2,323	1,861	19,333
Total	¥9,305	¥10,307	\$77,436

7. Other Comprehensive	Reclassification adjustments and tax effects related to other compre			
Income	for the years ended 31st March, 2015 and 2014 are as follows:			Thousands of

#### 28. Lease Transactions

#### (1) Finance leases

Information on finance lease transactions which are accounted for as operating leases at 31st March, 2015 and 2014 is summarized as follows:

			Thousands of
	Millions of y	/en	U.S. dollars
	2015 2014		2015
Amounts equivalent to acquisition cost			
Tangible fixed assets	¥4,435	¥4,355	\$36,911
Total	¥4,435	¥4,355	\$36,911
Amounts equivalent to accumulated depreciation			
Tangible fixed assets	¥3,723	¥3,524	\$30,985
Total	¥3,723	¥3,524	\$30,985
Amounts equivalent to carrying value			
Tangible fixed assets	¥712	¥830	\$5,926
Total	¥712	¥830	\$5,926

Note: The amount equivalent to acquisition cost includes an interest element as the total future finance lease payments are not significant to the balance of tangible fixed assets at the end of the year.

Future lease payments of finance leases which are accounted for as operating leases at 31st March, 2015 and 2014 are as follows:

			Thousands of
	Millions of	Millions of yen	
	2015	2014	2015
Future finance lease payments			
Due within one year	¥167	¥195	\$1,390
Due after one year	545	635	4,535
Total	¥712	¥830	\$5,926

Note: The amount of the future finance lease payments at the end of the year includes an interest element as the total future finance lease payments are not significant to the balance of tangible fixed assets at the end of the year.

Total lease payments during the year and the amount equivalent to depreciation expenses for the years ended 31st March, 2015 and 2014 are as follows:

	Millions of yen		Thousands of
			U.S. dollars
	2015	2014	2015
Total lease payments during the year	¥202	¥202	\$1,683
The amount equivalent to depreciation expenses *	202	202	1,683

\* The amount equivalent to depreciation expenses was calculated using the straight-line method with no residual value over the lease term.

#### (2) Operating leases

Future lease payments required under operating leases that are non-cancelable at 31st March, 2015 and 2014 are as follows:

			Thousands of
	Millions of	Millions of yen	
	2015	2014	2015
Future operating lease payments			
Due within one year	¥327	¥351	\$2,722
Due after one year	826	993	6,873
Total	¥1,153	¥1,345	\$9,596

#### 29. Financial Instruments

#### (1) Matters related to status of financial instruments

1. Policies for financial instruments

The Nishi-Nippon City Bank Group (the "Group") is engaged in the financial service business, with a primary focus on banking businesses such as deposits, loans, securities, and domestic and foreign currency exchange businesses. The Group manages and raises funds, taking into account market conditions and balancing duration. To conduct these businesses, the Bank comprehends the risks arising from all of its assets and liabilities, including off-balance-sheet transactions, through the proper controls over these risks, and builds reasonable and effective portfolios. Thus the Bank operates a comprehensive asset and liability management (ALM) system with the aim of maximizing and stabilizing its profits.

In addition, some of the Bank's consolidated subsidiaries are engaged in banking, credit card, credit guarantee services, credit management, restructuring support services, claims servicing businesses and financial instruments and exchange services.

2. Types of financial instruments and related risks

Loans, which comprise 70% of the Group's total assets, are primarily made to domestic corporations and individuals and are exposed to credit risks resulting from non-performance of contracts. Should the creditworthiness of major borrowers deteriorate, the value of collateral sharply decline, or other unanticipated problems arise, it could cause an increase in the cost of credit such as an unexpected write-off or rise in reserve for possible loan losses. Moreover, considering the relative weight of the invested assets, the impact of any such problems could be substantial and could have a negative effect on the financial position and performance of the Group.

Securities are mainly stocks, debt securities, and investment trusts and are exposed to the credit risk of each issuer and the risk of interest rate fluctuation. Stocks that are marketable are exposed to price volatility risks that a decline in their market prices cause impairment losses and valuation losses on the stocks. Debt securities are also subject to price volatility risks that an increase in the market interest rates following economic recovery may cause valuation losses on the securities.

Borrowed money and bonds are exposed to liquidity risks that, if some problems arise in cash management due to deterioration in financial positions at the Group, the Group is forced to raise funds at higher interest rates than usual, market transactions are suspended as a result of market turmoil, or it is forced to make transactions at a drastically unfavorable price than usual, it could impact future operations of the Group.

Derivative transactions include interest rate swaps, forward exchange transactions, currency swaps, and currency options. These derivatives are utilized primarily as hedging instruments to manage and mitigate the market risks of on-balance-sheet assets and liabilities. In addition, some of the derivative transactions in trading operations are used for the purpose of making profits through short-term fluctuations in the market rates, arbitrage transactions and others. Hedge transactions consist mainly of interest rate swaps as a hedge against interest rate fluctuation risks arising from loans with fixed interest rates and callable time deposits, and forward exchange transactions and currency options as a hedge against exchange rate fluctuation risks arising from foreign currency-denominated assets and liabilities. The Bank assesses the hedge effectiveness based on the difference between accumulated changes in cash flows of hedged items and hedging instruments. However, no evaluation is performed for the hedge effectiveness of qualifying interest rate swaps accounted for by the special treatment under the Accounting Standard for Financial Instruments, as it is ascertained that such derivatives continually meet the criteria for special treatment. Risks related to these derivatives transactions include the market risk of a potential loss in the fair value of financial instruments or portfolios resulting from fluctuations in interest rates, foreign exchange rates, stock prices and other factors as well as the credit risk of a potential loss in the value of a transaction due to default by counterparties to the contracts.

#### 3. Risk management system for financial instruments

#### ① Credit risk management

Recognizing the credit risk as our highest priority, the Group is working on strengthening controls over the credit risk in accordance with the Group's credit risk management policy and credit policy.

The Group applies its strict standards to the screening of individual credit extension, and credits that exceed certain thresholds are reviewed further by specialized staff in its Credit Supervision Division. In this way, the Group is working to maintain the soundness of its assets.

Regarding its loan portfolios, the Group tries to diversify risks to ensure that there is no concentration on any particular industrial sectors or customers, through its systems of credit risk quantification and portfolio management by sector based on the credit rating system.

In addition, each related division carries out self-assessment of its assets for calculating the appropriate level of write-offs and provisions. The asset audit office in the Internal Audit Division of the Bank constantly monitors the status of the self-assessment procedures and adequacy of the write-offs and provisions.

2 Market risk management

The Group clearly separates the department responsible for conducting market transactions (front office) from the department responsible for business administration (back office). Furthermore, the Corporate Risk Management & Compliance Division of the Bank, which is independent from the market divisions, has been put in charge of risk management (middle office) to monitor conditions of the market transactions and their compliance with the market risk-related regulations. The Group thus has a system of mutual controls among offices.

In addition, the Group is working to achieve stable profits by improving its management methods through a variety of techniques for measuring risks such as VaR (Value at Risk) and BPV(Basis Point Value) methods, and by establishing a maximum acceptable level for market risks and controlling the risks within the certain acceptable range.

(Quantitative information on market risks)

The measured quantity of market risks of the Group as a whole at 31st March, 2015 and 2014 were ¥35,405 million (\$294,625 thousand) and ¥45,024 million, respectively.

The Bank's financial instruments which are subject to the measurement include loans, deposits, securities and derivatives. The Bank measures market risks using historical VaR method with an observation period of five years, a confidence interval of 99% and a holding period of 6 months. The quantity of market risks of the Bank at 31st March, 2015 and 2014 were ¥34,422 million (\$286,449 thousand) and ¥43,684 million, respectively.

The Bank performs backtesting, which compares VaR calculated by the model with actual performance (gain or loss). Based on the results of the testing, we believe that the risk measurement model which we use captures market risks with sufficient accuracy. However, since VaR measures market risks at a certain probability which is statistically calculated, it is not always possible for the model to capture market risks in situations where market conditions change drastically. ③ Liquidity risk management

The Group recognizes the liquidity risk as one of the most significant risks, because there are concerns over potential business failures and systemic risks when the liquidity risk rises. The Group provides against the liquidity risks by ensuring an adequate reserve for outstanding claims and developing a contingency plan that assumes various scenarios.

As for the day-to-day cash management of the Bank, a system of mutual controls among divisions has been put into place. As a part of this system, the Treasury & Securities Transaction Division and Treasury & Portfolio Investment Division, which are responsible for the Bank's day-to-day cash management, raise and manage marketable funds, while the Corporate Risk Management & Compliance Division, which is responsible for managing the liquidity risk, monitors the Bank's cash position. In this way, the Bank maintains a fluid and stable cash position.

④ Risk management for derivative transactions

The Bank's derivative transactions are entered into using operational rules prepared in accordance with the Bank's internal regulations. The rules stipulate the scope of derivative usage, authorization, responsibility, procedure, credit line, loss-cut rule, and reporting system. Each business line is responsible for each relevant risk management and for reporting to management, including the ALM Committee, on a monthly basis.

4. Supplementary explanation of the estimated fair value of financial instruments The fair value of financial instruments includes the value based on the market price as well as a reasonably estimated value in case there is no market price. Because various assumptions are used in the estimation of the fair value, the fair value may vary when different assumptions are used.

#### (2) Estimated fair value of financial instruments

Carrying value of financial instruments in the consolidated balance sheets at 31st March, 2015 and 2014 and their fair values and valuation differences are as follows. Non-listed stocks and others whose fair value is extremely difficult to be estimated are excluded from the table below (refer to Note 2).

#### <At 31st March, 2015>

(Note 1) Methods for estimating the market value of financial instruments

Assets:

(1) Cash and due from banks

Because the fair value of due from banks that does not have stated maturity approximates its carrying value, the carrying value is treated as the fair value. The fair value of due from banks that has stated maturity is based on the present value of the totals by maturity bucket discounted by the interest rate that would be applied if similar deposits were placed. As the fair value of due from banks with a short-term original contractual maturity (one year or less) approximates its carrying value, its carrying value is treated as the fair value.

(2) Securities

The fair value of stocks is based on their market price on the stock exchange, while the fair value of debt securities is based on the Reference Prices (Yields) for OTC Bond Transactions published by the Japan Securities Dealers Association, the price quoted by the correspondent financial institutions or the value reasonably calculated by the banks. The fair value of investment trusts is based on the announced reference price or the price quoted by the correspondent financial institutions. The fair value of foreign securities is based on the price quoted by the correspondent financial institutions or the financial information vendors.

The fair value of private placement bonds with the Bank's own guarantee is based on the present value of future cash flows discounted by the market interest rate adjusted for credit risk.

Notes concerning securities by each carrying purpose are presented in "30. Securities" of "Notes to Consolidated Financial Statements."

#### (3) Loans and bills discount

Because loans and bills discounted with floating interest rates reflect market interest rates in a short period of time, the fair value of such loans approximates their carrying value as long as the credit standing of the borrower has not changed significantly since origination. Thus, the carrying value of such loans is treated as the fair value. The fair value of loans and bills discounted with fixed interest rates is based on the present value of the total amount of principal and interest categorized by the type of loans, internal rating and term, discounted by the market interest rate adjusted for credit risk. Because the fair value of loans with a short-term contractual maturity (one year or less) approximates their carrying value, the carrying value is treated as the fair value.

Regarding loans to borrowers under bankruptcy proceedings, borrowers substantially in bankruptcy and customers with high probability of becoming insolvent, since the fair value of such loans approximates their carrying value after deducting the reserve for possible loan losses, which is calculated based on the present value of estimated future cash flows or the estimated amounts collectible from the sale of collateral and guarantees, the carrying value is treated as the fair value.

With respect to loans and bills discounted that have no due date because of special attributes such as limiting the borrowings to the amounts secured by collateral, because it is assumed that the fair value approximates the carrying value from the estimated repayment period and interest rate conditions, the carrying value is treated as the fair value.

#### Liabilities:

#### (1) Deposits

For demand deposits, the amount which would be paid if its repayment were demanded on the consolidated balance sheet date (carrying value) is deemed to be the fair value. The fair value of time deposits is based on the discounted present value of the future cash flows categorized by term. The discount rate is the interest rate that would be applied when new deposits were taken. Because the fair value of those with a short-term original contractual maturity (one year or less) approximates their carrying value, the carrying value is treated as the fair value.

#### (2) Call money and bills sold

Since call money and bills sold have short-term original contractual maturity (one year or less) and their fair value approximates the carrying value, the carrying value is treated as the fair value.

#### (3) Borrowed money

Because borrowed money with floating interest rates reflects market interest rates in a short period of time and the credit standing of the Bank and its consolidated subsidiaries has not changed significantly since the borrowing, the fair value of such borrowed money is deemed to approximate the carrying value. Therefore, the carrying value is treated as the fair value. The fair value of borrowed money with fixed interest rates is based on the present value of the total amount of principal and interest of the borrowed money categorized by term, discounted by the market interest rate adjusted for credit risk. Because the fair value of borrowed money with a short-term original contractual maturity (one year or less) approximates its carrying value, the carrying value is treated as the fair value.

(4) Bonds

The fair value of bonds is based on the Reference Price (Yields) for OTC Bond Transactions published by the Japan Securities Dealers Association or the price quoted by the securities company. Since bonds with floating interest rates reflect market interest rates in a short period of time and the credit standing of the issuers has not changed significantly since the issuance, the fair value of such bonds is deemed to approximate their carrying value. Thus, the carrying value is treated as the fair value.

#### Derivative transactions:

Derivative transactions are presented in "32. Derivatives" of "Notes to Consolidated Financial Statements."

#### (Note 2) Financial instruments whose fair value is extremely difficult to be estimated are as stated below. They are not included in "Assets: (2) Available-for-sale securities" presented in "Estimated fair value of financial instruments."

			I nousands of		
	Millions of	Millions of yen			
	2015	2014	2015		
Non-listed stocks	¥14,638	¥15,024	\$121,817		
Investments in partnerships	2,016	2,120	16,780		
Total	¥16,655	¥17,144	\$138,597		
N	1 / 1 11	1 1.00	× 1		

Notes: 1. Because non-listed stocks have no market price and because it is extremely difficult to estimate their fair value, they are not subject to the fair value disclosure.

2. In the years ended 31st March, 2015 and 2014, impairment losses of ¥0 million

(\$5 thousand) and ¥117 million were recorded for non-listed stocks, respectively.

 Investments in partnerships whose fair value is extremely difficult to be estimated because the partnership's assets are non-listed stocks, etc. are not subject to the fair value disclosure.

(Note 3) Repayment schedules for monetary claims and securities with stated maturity at 31st March, 2015 and 2014

#### (5) Devaluation of securities

Securities other than trading securities (excluding securities whose fair value is extremely difficult to be estimated) are devalued to the fair value, and the difference between the acquisition cost and the fair value is treated as the loss for the fiscal year ("devaluation"), if the fair value (primarily the closing market price at the consolidated balance sheet date) has significantly deteriorated compared with the acquisition cost (including amortized cost) unless it is deemed that there is a possibility of a recovery in the fair value. The amounts of devaluation was ¥642 million\* for the year ended 31st March, 2014. No devaluation was recorded for the year ended 31st March, 2015.

\* stocks ¥642 million

The criteria for determining whether the fair value of a security has "significantly deteriorated" are outlined as follows:

- 1. The fair value is 50% or less of the acquisition cost, or
- 2. The fair value exceeds 50% but is 70% or less of the acquisition cost and the quoted market price maintains a certain level or lower.

## (6) Unrealized gains/losses on securities available for sale

The components of the unrealized gains/losses on securities available for sale at 31st March, 2015 and 2014 are as follows:

Notes: 1. Calculation of fair value is based on the discounted cash flows and others.

2. Since the interest rate swaps, to which the special treatments are applied, are accounted for as synthetic products composed of loans and bills discounted and deposits, their fair value is included in the fair value of the said loans and bills discounted and deposits which are disclosed in "Financial Instruments (Note 29)". The balance of unamortized premium for interest rate options is ¥100 million (\$838 thousand).

# 33. Employee Retirement Benefits

(1) Description of the retirement benefit plans

The Bank and its domestic consolidated subsidiaries adopt funded or unfunded defined benefit plans and/or the defined contribution plan to provide for employee retirement benefits.

Under the defined benefit corporate pension plans (all funded), lump-sum or annuity payments are made at the amounts based on salaries and the length of service periods of the covered employees. The Bank has established a retirement benefit trust for its defined benefit corporate pension plan.

Under the lump-sum payment plans (principally unfunded, however, some plans have a funded status as a result of the establishment of a retirement benefit trust), retirement benefits are paid in the form of a lump sum at the amounts based on salaries and the length of service periods of the covered employees.

The Bank may also pay additional retirement benefits that are not subject to actuarial calculation.

As of 31st March, 2015, the lump-sum payment plans have been adopted by 6 group companies including the Bank and its domestic consolidated subsidiaries. The corporate pension fund plans have been adopted by the Bank and 1 consolidated subsidiary. The defined contribution plan has been adopted by 1 consolidated subsidiary.

For the lump-sum payment plans that certain consolidated subsidiaries have adopted, liability for retirement benefits and retirement benefit expenses are calculated using the simplified method which assumes the retirement benefit obligation to be equal to the benefits payable if all the eligible employees voluntarily terminated their employment at fiscal year end.

#### (2) Defined benefit plans

(a) Reconciliation between the balances of retirement benefit obligation at the beginning and end of the year for the years ended 31st March, 2015 and 2014

Unrealized gains on securities available for sale, net	(29,252)	(20,095)	(243,428)
Total deferred tax liabilities	(29,336)	(20,209)	(244,128)
Net deferred tax assets (liabilities)	(¥8,770)	¥8,480	(\$72,985)

The reconciliation between the statutory tax rates and the effective tax rates reflected in the consolidated statements of income for the years ended 31st March, 2015 and 2014 is not presented as the difference between those rates was 5/100 or less.

[Disclosure for the year ended 31st March, 2015]

Revision of deferred tax assets and liabilities due to change in statutory tax rate

In accordance with the promulgation on 31st March, 2015 of the "Act for Partial Amendment of the Income Tax Act, etc." (Act No. 9 of 2015) and the "Act for Partial Amendment of the Local Tax Act, etc." (Act No. 2 of 2015), the corporate tax rates were lowered to be applied from the fiscal year beginning 1st April, 2015. Consequently, the effective statutory tax rate used to calculate deferred tax assets and liabilities was changed from 35.4% to 32.8% for the temporary differences expected to be realized or settled during the year beginning 1st April, 2015 and then to 32.1% for the temporary differences expected to be realized or settled from the year beginning on or after 1st April, 2016. As a result, net deferred losses on hedging instruments, net of taxes, and retirement benefits liability adjustments, net of taxes, decreased by ¥37 million (\$310 thousand) and ¥279 million (\$2,327 thousand), respectively, whereas deferred income taxes increased by ¥1,175 million (\$9,784 thousand), ¥0 million (\$1 thousand), ¥2,968 million (\$24,702 thousand) and ¥1,475 million (\$12,281 thousand), respectively, as of and for the year ended 31st March, 2015. Also, deferred tax liabilities on revaluation of premises decreased by ¥1,636 million (\$13,617 thousand), and revaluation of premises, net of taxes, increased by the same amount, as of 31st March, 2015.

Application of consolidated taxation system

The Bank and two of its consolidated subsidiaries—The Bank of Nagasaki, Ltd. and Nishi-Nippon Credit Guarantee Co.—have applied for the introduction of the consolidated taxation system from the year ending 31st March, 2016 and, starting from the year ended 31st March, 2015, have adopted the accounting treatment based on the "Practical Solution for Tentative Treatment of Tax Effect Accounting under Consolidated Taxation System (Part 1)" (ASBJ Practical Issues Task Force No.5) and the "Practical Solution for Tentative Treatment of Tax Effect Accounting under Consolidated Taxation System (Part 2)" (ASBJ Practical Issues Task Force No.7).

With this change, deferred tax assets increased by ¥507 million (\$4,226 thousand), whereas retirement benefits liability adjustments, net of taxes, and deferred income taxes decreased by ¥33 million (\$280 thousand) and ¥541 million (\$4,506 thousand), respectively, as of and for the year ended 31st March, 2015.

### 35. Business Combination

#### <For the year ended 31st March, 2015>

Transactions under common control

- The Bank and one of its consolidated subsidiaries—The Bank of Nagasaki, Ltd. ("The Bank of Nagasaki") have carried out a share exchange, by which The Bank of Nagasaki became a wholly owned subsidiary of the Bank, effective as of 18th December, 2014.
  - 1. Overview of business combination
  - Name and outline of business of the combined company Name: The Bank of Nagasaki, Ltd. Business: Banking
  - (2) Date of business combination 18th December, 2014
  - (3) Legal form of business combination Share exchange
  - (4) Name of the company after business combination No change

(5) Outline of the transaction including its purpose

To further enhance the Group's comprehensive financial capabilities as set forth in the Bank's mid-term management plan implemented in April 2014, the share exchange has been carried out, by which The Bank of Nagasaki became a wholly owned subsidiary of the Bank, for the purposes of expediting and streamlining the Group's overall management processes and further strengthening the business infrastructure of The Bank of Nagasaki through reinforcement of the partnership between the other companies in the Group and The Bank of Nagasaki.

2. Outline of accounting treatment for the transaction

This transaction was treated as a transaction under common control based on "Accounting Standard for Business Combinations" (ASBJ Statement No. 21 of 26th December, 2008) and "Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10 of 26th December, 2008).

- 3. Additional purchase of the subsidiary's shares
- (1) Acquisition cost and breakdown
  - Acquisition cost: ¥453 million (\$3,776 thousand) Consideration for acquisition (treasury shares): ¥453 million (\$3,776 thousand)
- (2) Exchange ratio and calculation method, and the number of shares delivered by class of shares
- a) Exchange ratio by class of shares

0.067 shares of the Bank common stock for each share of The Bank of Nagasaki common stock b) Calculation method for the exchange ratio

- To ensure the fairness and appropriateness of the share exchange ratio, the Bank and The Bank of Nagasaki selected Nomura Securities Co., Ltd. and Patent Finance Consulting Co., Ltd., respectively, as a third-party valuation institution to calculate the share exchange ratio. Based on their calculation results, the Bank and The Bank of Nagasaki carefully negotiated and ultimately agreed that the above exchange ratio is appropriate.
- c) Number of shares delivered 1,342,674 shares
- (3) Amount of gain on bargain purchase and cause of occurrence
- a) Amount of gain on bargain purchase
  - ¥51 million (\$426 thousand)
- b) Cause of occurrence

The cost for the subsidiary's shares acquired from its minority shareholders was less than the amount of the decrease in minority interests.

- II. The Bank and one of its consolidated subsidiaries—Nishi-Nippon Credit Guarantee Co. ("Nishi-Nippon Credit Guarantee")—have carried out a share exchange, by which Nishi-Nippon Credit Guarantee became a wholly owned subsidiary of the Bank, effective as of 27th February, 2015.
  - 1. Overview of business combination
  - Name and outline of business of the combined company Name: Nishi-Nippon Credit Guarantee Co. Business: Credit guarantee
  - (2) Date of business combination 27th February, 2015
  - (3) Legal form of business combination Share exchange
  - (4) Name of the company after business combination No change
  - (5) Outline of the transaction including its purpose

To further enhance the Group's comprehensive financial capabilities as set forth in the Bank's mid-term management plan implemented in April 2014, the share exchange has been carried out, by which Nishi-Nippon Credit Guarantee became a wholly owned subsidiary of the Bank, for the purpose of expediting and streamlining the Group's overall management processes.

2. Outline of accounting treatment for the transaction

This transaction was treated as a transaction under common control based on "Accounting Standard for Business Combinations" (ASBJ Statement No. 21 of 26th December, 2008) and "Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10 of 26th December, 2008).

- 3. Additional purchase of the subsidiary's shares
- (1) Acquisition cost and breakdown
  - Acquisition cost: ¥3,418 million (\$28,445 thousand) Consideration for acquisition (treasury shares): ¥3,418 million (\$28,445 thousand)
- (2) Exchange ratio and calculation method, and the number of shares delivered by class of shares
- a) Exchange ratio by class of shares
- 17,500 shares of the Bank common stock for each share of Nishi-Nippon Credit Guarantee common stock b) Calculation method for the exchange ratio

To ensure the fairness and appropriateness of the share exchange ratio, the Bank selected Nomura Securities Co., Ltd. as a third-party valuation institution to calculate the share exchange ratio. Based on this calculation result, the Bank and Nishi-Nippon Credit Guarantee carefully negotiated and ultimately agreed that the above exchange ratio is appropriate.

c) Number of shares delivered 8,925,000 shares

- (3) Amount of gain on bargain purchase and cause of occurrence
- a) Amount of gain on bargain purchase

¥1,337 million (\$11,131 thousand)

b) Cause of occurrence

The cost for the subsidiary's shares acquired from minority shareholders was less than the amount of the decrease in minority interests.

#### **36.** Asset Retirement Obligations Information on asset retirement obligations is as follows:

Asset retirement obligations that are recorded in the consolidated balance sheets

(1) Outline of asset retirement obligations

The Bank and its consolidated subsidiaries recognize asset retirement obligations for restoration obligations resulting from real estate lease agreements such as those of the Group branch offices and commercial fixed-term leasehold agreements. The Bank and its consolidated subsidiaries also recognize asset retirement obligations pertaining to obligations to remove hazardous substances used in some of their branch offices in accordance with the Ordinance on Prevention of Health Impairment due to Asbestos.

(2) Method for calculating the value of asset retirement obligations

An asset retirement obligation is calculated by first estimating the period of expected use of the asset, which is the relevant building's depreciation period (principally 39 years), and then discounting the value of the relevant liability using the government bond's market rate (principally 2.304%) that matches said depreciation period as the discount rate.

#### (3) Changes in total asset retirement obligations for the years ended 31st March, 2015 and 2014

			Thousands of
	Millions of yen		U.S. dollars
	2015	2014	2015
Balance at beginning of the year	¥833	¥825	\$6,933
Increase due to acquisition of tangible fixed assets	5	6	43
Adjustment for passage of time	14	15	119
Decrease due to fulfillment of asset retirement	16	15	137
obligation			
Balance at end of the year	¥836	¥833	\$6,958

37. Business Segment Information

# Segment Information (1) Segment information summary

Financial information can be individually obtained for each of the Group's reportable segments. This information is regularly reviewed by the board of directors in order to determine how to allocate business resources and to evaluate business performance.

The Group consists of the Bank, 7 consolidated subsidiaries and 1 affiliate. The Group is engaged in the financial services business, with a primary focus on the banking business.

Thus, while the Group is composed of business segments offering different financial services, the Group's reportable segment is the "banking business" which the Bank and The Bank of Nagasaki are engaged in.

The "banking business" is a wide range of services including services for deposits, loans, securities investment, domestic and foreign currency exchange, and other incidental services.

(2) Method for calculating the amount of ordinary income, profit or loss, assets, liabilities and other items The accounting policies of reported business segments are the same as those described in "2. Summary of Significant Accounting Policies". The segment income is reported on an ordinary income basis. In addition, internal ordinary income among segments is based on the same transaction terms as used in ordinary transactions with third parties.

(3) Ordinary income, profit or loss, assets, liabilities and other items by reportable segments

#### <In 2015>

	Millions of yen

Gain on Bargain Purchase by Reportable Segments

Amortization of goodwill

Balance at end of the year

#### <In 2015>

To further enhance the Group's comprehensive financial capabilities as set forth in the Bank's mid-term management plan implemented in April 2014, the share exchanges have been carried out, by which The Bank of Nagasaki, Ltd. and Nishi-Nippon Credit Guarantee Co. became wholly owned subsidiaries of the Bank, and the Bank acquired additional shares of certain consolidated subsidiaries to increase its ownership ratio, for the purpose of expediting and streamlining the Group's overall management processes.

As a result, gain on bargain purchase of ¥51 million (\$426 thousand) was recognized for the "banking" segment and ¥1,919 million (\$15,975 thousand) for the "other" segment, respectively, for the year ended 31st March, 2015.

#### 38. Related Party Transactions

Related party transactions for the years ended 31st March, 2015 and 2014 are as follows:

#### 1. Transactions of the Bank with related individuals, including shareholders and directors

#### <In 2015>

Attribute	Name	Address	Common stock	Business/ occupation	Equity ownership	Relationship	Transactions	Transaction amount	Account	Balance at end of year

Net assets attributable to common stock	447,582	403,482	3,724,581

	Shares	5
	2015	2014
Number of shares of common stock outstanding		
at end of the year	790,811,220	794,963,667

Basis for net income per share for the years ended 31st March, 2015 and 2014 are as follows:

			I nousands of
	Millions o	f yen	U.S. dollars
	2015	2014	2015
Basic:			
Net income	¥24,843	¥24,009	\$206,733
Items not attributable to common stock	-	_	-
Net income attributable to common stock	24,843	24,009	206,733
	Share	5	
	2015	2014	
Average number of shares of common stock			
outstanding during the year	793,080,125	795,002,977	

T1 1 C

\* Diluted net income per share for the years ended 31st March, 2015 and 2014 was not presented, because the Bank and its consolidated subsidiaries had no dilutive shares during the years.

[Change in Accounting Policies]

As stated in Note 3 "Change in Accounting Policies," the main clause of Paragraph 35 of the Retirement Benefits Accounting Standard and the main clause of Paragraph 67 of the Retirement Benefits Guidance were adopted effective from 1st April, 2014, and the provisional treatment set forth in Paragraph 37 of the Retirement Benefits Accounting Standard was applied.

As a result, net assets per share decreased by  $\pm 0.16$  ( $\pm 0.00$ ) as of 31st March, 2015. The effect of this change on net income per share for the year ended 31st March, 2015 was immaterial.

41. Cash Dividends

Cash dividends paid during the year ended 31st March, 2015, which were distribution of earned surplus at 31st March, 2014, are as follows:

			Thousands of
Resolution	Types	Millions of yen	U.S. dollars
June 27, 2014	Cash dividends (¥3.5 per share)	¥2,782	\$23,153
Ordinary General Meeting			
of Shareholders			
November 10, 2014	Cash dividends (¥2.5 per share)	¥1,986	\$16,534
Meeting of Board of Directors			

Cash dividends paid during the year ended 31st March, 2014, which were distribution of earned surplus at 31st March, 2013, are as follows:

Resolution	Types	Millions of yen
June 27, 2013	Cash dividends (¥2.5 per share)	¥1,987
Ordinary General Meeting		
of Shareholders		
November 8, 2013	Cash dividends (¥2.5 per share)	¥1,987
Meeting of Board of Directors		

42. Subsequent Event

The following appropriation of earned surplus for the year ended 31st March, 2015 was approved at the shareholders' meeting held on 26th June, 2015:

			Thousands of
Resolution	Types	Millions of yen	U.S. dollars
June 26, 2015	Cash dividends (¥4.0 per share)	¥3,163	\$26,326
Ordinary General Meeting			
of Shareholders

# Notes to Non-Consolidated Financial Statements (Unaudited)

The	Nishi-Nippon City Bank, Ltd.	Years ended 31st March, 2015 and 2014
1.	<b>Basis of Presentation of</b>	The accompanying non-consolidated financial statements of The Nishi-Nippon City Bank, Ltd. (the Bank)
	<b>Financial Statements</b>	have been prepared from the accounts maintained by the Bank in accordance with the provisions set forth in
		the Japanese Corporation Law, the Banking Law, and accounting principles generally accepted in Japan,
		which are different in certain respects as to the application and disclosure requirements of International
		Financial Reporting Standard.
2.	Other Accounting Principle	Accounting principles employed by the Bank in preparing the accompanying non-consolidated financial
	and Practices Employed by	statements which have significant effects thereon, are explained in Note 2 of the Notes to Consolidated
	the Bank	Financial Statements.

# Independent Auditor's Report

The Board of Directors The Nishi-Nippon City Bank, Ltd.

We have audited the accompanying consolidated financial statements of The Nishi-Nippon City Bank, Ltd. and its consolidated subsidiaries, which comprise the consolidated balance sheet as at March 31, 2015, and the consolidated statements of income, comprehensive income, changes in net assets, and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

## Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. The purpose of an audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Nishi-Nippon City Bank, Ltd. and its consolidated subsidiaries as at March 31, 2015, and their consolidated financial performance and cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

### **Convenience** Translation

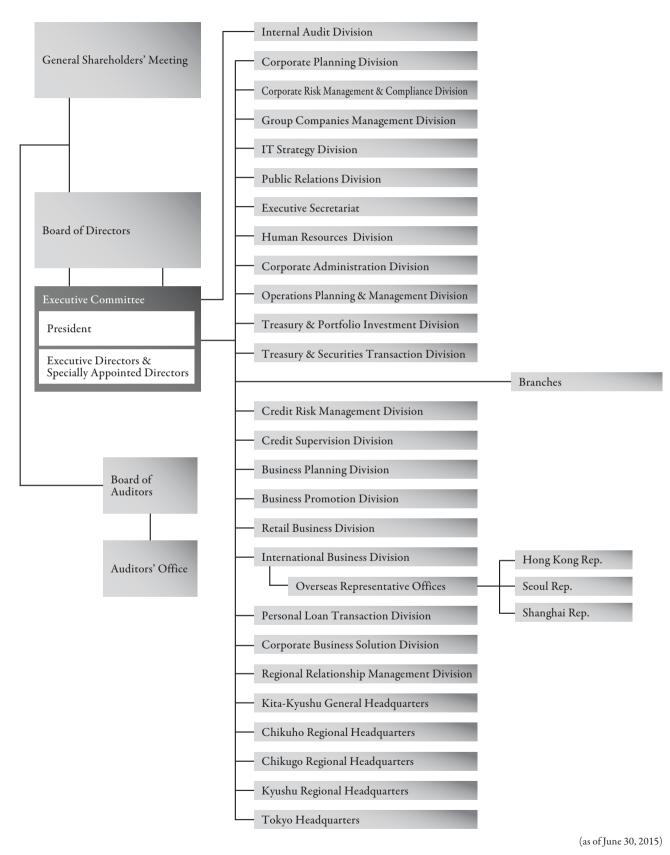

We have reviewed the translation of these consolidated financial statements into U.S. dollars, presented for the convenience of readers, and, in our opinion, the accompanying consolidated financial statements have been properly translated on the basis described in Note 1.
